

SMALL LIVING

BIG IDEAS FOR ALL SPACES

HOW TO LIVE SMALL

Minimalist-ish

Consider the right number of things for you and your family. Try less, see what happens. Less Things = More Time, Less cleaning, care, and maintenance.

Donations

Have a box or canvas bag in a closet - notice when clothes, toys, redundant things haven't been used in a while. Put them away in the box. If they aren't asked for in a month. Donate the contents.

Fewer Things

Do I really need this?

Could I wait to purchase it?

Is there something I currently own that could achieve the same purpose?

Can I find this second-hand or borrowed?

Following the "One In One Out Rule", if this is coming in the home, what is leaving?

No Shame

If it works for you, it's no one else's concern. You know your family.

HELPFUL RULES

One in One Out

Less is More

Quality Over Quantity

SMALL SPACE SOLUTIONS

Give Up Your Bedroom - Consider a wall bed or sofa bed in your living room or spare room to get multi-use from space.

Kids Can Share

Bunk Beds + Mini Cribs + Toddler Beds are all great space-saving solutions for sharing a room.

Capsule Clothing Closets to reduce decisions and save space.

Reduce Visual Clutter - Invest in concealed storage solutions, A Place for Everything. Use Bins, Baskets, Trays to organize and contain things.

Big Sofa in a Small Space - Against conventional wisdom make room for a larger sofa, sectional or modular sofa for lots of comfy seating even in a small space

Lose the Coffee Table - have side tables instead that are easier to move around and can double as extra seats.

Go Digital - with kids artwork, take photos and make an art photo book. Reduce paper clutter by opting in for email bills and notices. Scan or take photos of important documents as much as possible.

Get Outside - Get outside regardless of the weather. Use the city as the backyard.

SMALL SPACE SURVIVAL
